## MEET THE HASTUEEL!

### **Floor - introduced by Miret**

Our Flora, Floortje, Floor. The person who perhaps knows Ha-Stu best. She belongs to the old garde, served on all sorts of committees and was matchseccie in her board year. Requested and especially unrequested advice on all Ha-Stu things. All this while our Flora is a real horse girl and she would have jumped right over to the Jolly Jumpers. 🐎 Fortunately, she chose the fun of handball and grew into a real handball star. Stopping talking, and especially on the court, she barely manages to do so, which is why Flora is the perfect committee member for the Hastueel.

### **Miret - introduced by Juliët**

Chances are high you've already had a chat with her. Miret is our chatterbox friend. She is always chatting and she is not averse to a voice message either. She normally shines as a back player in Ladies 2, but at this moment she is in her new era. The girl has graduated and is currently among the palm trees looking for a new (civil) self. That's scary too because the food there is very spicy for this Achterhoeker. With luck, they have Brie there. Brieret loves that. Sometimes, after a night out for example, cutting goes a little wrong. Grrr. We are curious to see if our world traveler can throw a tasty recipe for the Hastueel. Otherwise, we're sure that when Miret is back, we'll have plenty of wist je datjes.

### **Juliët - introduced by Isa**

Juliët aka Juul is 23 years old and is currently doing her premaster sociology in Utrecht! Luckily she still lives in Nijmegen so we at Ha-Stu can still enjoy her. Juul has been with Ha-Stu for over 3 years and is currently in ladies 3. Juul is a real brokkenpilote; she has suffered a record number of injuries and unfortunately was sometimes on the blessurebankje more often than on the field. From bumps on ankles to broken thumbs, she has experience with everything. To still stay involved with the team, she crowned herself last season as a 'Kom-op coach' and with that she tried to cheer her team to victory. This did not always work out, but the idea was there. Juul always has her ears open for wist-je-datjes (but she is also often the victim herself; (did you know for example that you can get a burn on your lip if you kiss someone with a beard/moustache?), so perfect for the Hastueel!

## DID YOU KNOW....

Did you know not to make a brie sandwich at 2am?: ahrrrr

Did you know that stairs are for walking on and not for kicking against, right Marieke?

Did you know that you should only put honey in your tea at 85 degrees (or colder)?

Did you know that Floor actually likes mussels just fine?

Did you know that Mette really likes Brussels sprouts with satésauce?

Did you know that Mats loves Dusty?

Did you know that the first real concert Jochem ever attended was at Martin Garrix and that he was VIP there?

Did you know that Mats thinks about Einstein once a week? But actually more often of Lorentz.

### **Isa - introduced by DJ**

Isa the Pisa is one of the more experienced members of the Hastueel. The most baffling thing about her is that she doesn't know Zoop. At all. But that's okay, because without that knowledge she still has enough to say to be a great addition to the Hastueel! She just turned 23 and therefore is a Saggiarius (boogschutter) - no idea what that means. Since this year, she is playing as a back for ladies 1. As humble as she is, sometimes she doubts how good of a player she is. No one understands that, as she is a great back #slay. Another little fact about her is that she is from Enschede, which is not in the Achterhoek but in Twente (like Ilse de Lange). Every year, Ha-Stu visits her place of birth to celebrate Isa and play some beach handball matches at Cabezota. And to close this little introduction, her last name is The Cock.

### **DJ - introduced by Stampie**

Meet DJ! For everyone who doesn't know yet, she is called Eva, one of many. She did not only deserve her nickname by her last name (de Jong), but also because she is the DJ both during the practices as in the dressing room. She is the current captain of ladies 1, who she is leading amazingly because they are definitely becoming champions. DJ likes doing research, sticking stickers in fun places and eating like a vegetarian. She is 26 years old and this second most fun Eva has been playing at Ha-Stu as a steady left back with a hell of a distance shot for 4 years now, and we could never play without her anymore! \*slay\*

## **Stampie - introduced by Ferry**

Stampie is a very good handballplayer. She inspires us with her shots in and outside the field. In the top corner of the goal, or scoring at the karaokebar, she can do anything you wish you could. Stampie is a multi-talented woman skilled with a great right hand, lots of insights on difficult matters like build stuff and a nice softish G. After singing in the karaokebar her voice is the same as the name of the village she is from: Heesch. Stampie plays in ladies 1 where she is an important asset in the losses of last year and the wins of this season. She is a real "horeca" tiger (which stands for hotel-restaurant-café). She works a lot at our amazing sponsor Plan-A. Stampie believes everything you say if you can keep a straight face longer than 2.5 seconds. Where Stampie, her nickname comes from, is something you have to ask her yourself! You can recognize Stampie if you see somebody not paying attention to what the trainer is explaining, because she is dreaming about something "more" important than handbal, like salmari. You have not seen the last of her yet!

## **Ferry - introduced by Floor**

Meet Ferry, 25 years young and born and raised in the Achterhoek (mostly known for the Zwarte Cross). But don't expect him to feel at home among the BBB-voting farmers. No way, just put him in Nijmegen. With only 2,840 inhabitants, Beltrum simply was too small for the volume and energy that Ferry brings. Ferry is a familiar face at Ha-Stu, where, as a coach, trainer and enthusiastic team member, he always wants to give his best. As a social worker, Ferry further dedicates himself tirelessly to helping others (love u for that). But Ferry is not only active on the sports fields. His legendary Halloween parties are a phenomenon (where no one remembers exactly what happened the next day, except that it was epic). And when the night falls, there's a good chance you'll hear him singing karaoke at Roxy's, where he will be singing (or screaming) at Since U Been Gone by Kelly Clarkson.

These are the precious little writers that will provide you with all the latest gossip and the most hilarious memes. We love you, you're welcome.

## MEMBERSWEEKEND 2024 RECAP

This September it was time for MEMBERSWEEKEND. In a not even a village, in the middle of the grasslands, was the manege. There the criminals were allowed to stay. Animal friends Elise, Evi and Juliët went early to the horse stable to turn it into a real prison. All kinds of criminals gathered at RSC. Arriving at the extra-security prison, criminals had to sign in and were given a presentation with the rules during this rehabilitation camp. Because if there is no evidence, you remain guilty. All prohibited materials such as satisfyers had to be turned in.

When everyone was well informed about this house rule of the camp we could start with the games. There was a lot of stress ponging, but then the alarm went off. The criminals had to gather with their tea towel on their head. After an exciting trip through the empty dark meadows, the criminals had to go deal their drugs, but were not allowed to get caught by the police. Upon returning home, we were able to warm up by vibrating our vocal cords. Dj had a bottle of Salmari and Smekkie gave a concert, with us singing along enthusiastically.

The next day, the criminals had to face the mistakes they made the night before. We started with 'living stratego' and had a tostifabriek lunch. The afternoon consisted of a quest full of games leading us to the wonderful citycenter of Hengelo (not the big Hengelo, but the really (really) small Hengelo). After the last and losing group came in at the final location, we all had a beer and walked back to the jail/manege. Saturday night, it was time for the Biro! A lot of beers were drunk, and Ferry took the first prize, with Nicky as an honorary second (until she puked all beers out again). That night, a severe crime was committed: someone broke Stampie's sword... Justice has still not been served... The night ended, as most nights during all membersweekends, drunk in the kitchen. We had a blast.

Yet again, we regretted our decisions the next day. After cleaning on Sunday, we auctioned all remaining items because we do not like foodwaste and the criminals were released from prison. All newly free people went home tired, but very satisfied. Thank you membersweekend committee for this amazing weekend!!!

## WHAT'S IN YOUR BAG?

**Milou** has a very minimalistic bag. It is purple with yellow logos on it; one of them is of a place called 'de Animatie Compagnie'. Milou worked here as Koos Konijn and as Pongo the Pirate. Plus point for this fun detail. The contents of the bag are also minimal: a phone, a water bottle and scissors. The last object is Milou's favourite and is used for taping her thumb. Otherwise, the bag smells neutral, which is unusual for a sports bag. One drawback to the bag: Milou lacks some space. We get that.

Final verdict: 2/5 stars; nice bag, minimalism is in these days. Very small though, and where is your towel Milou????

**Mette's** bag is red and has quite a lot of items, like; 3 jars of vaseline, a beer mat, broken earphones, a gift voucher, a mini foam roller, 3 biscuits, a water bottle, hairties, rennies, a chipsbag and tissues. Mette's favourite item is dextro, or hairspray. However, the thing she misses in her bag is organization. Mette thinks her bag is too small and she wants more vaseline. We would say 3 jars is quite enough, but all we can be sure of is that Mette's lips will never be dry. When we stick our nose in the bag, we notice there is a smell which is not very fresh. But that's okay. Then last but not least, if Mette's sportsbag had a personality, she would describe it as problematic. This bag feels like a survival package, 3,5/5 stars.

## THE WORST MATCH OF LADIES 3...

Okay, it started in the car. Oh no before that, because we suddenly had two sick calls. Then in the car we found out that Eline had taken the shirt bag to the ladies 2 game instead of ladies 3. We played in the opponent's neon orange. Then we went outside to warm up, as there was no room in the hall. We started with long trousers on and just before the whistle we had blue shorts again. That was really ugly. Imagine, an XL orange men's shirt and blue and yellow shorts. Yuck. Lots of drama and stress even before the match had started.

Fluuuuutt. The match started. We started fine. They were also just bigger, stronger and better. But the refereeing was bizarre. I got 2 min VERY unfairly. Could have rested nicely though. That girl literally ran into me and did a head roll on me. The ref said I was on the man instead of the ball and at high level that really needs to be watched carefully. She has a point there, because of course we also play very high 🤪. Lara did interval handball; 2 min in the field, 2 mins out, which is why she went to goalkeeping in the second half. We started the 2nd half already with a small number. Manon came in. The match table said 3, 2, 1 and Manon went into the match at 1 and they didn't like that. While they were leading by 15 points. Manon had to go back on the bench and the referee had to put someone else out. It was a special match.

*This page was intentionally made black... because this was a very dark day for ladies 3. Thoughts and prayers from the Hastueel committee. 🙏*

## RECIPE REVIEW

According to Ferry we ate a delicious Linzensoep with naanbrood from the Lidl. We asked for a recipe and he told us the secret ingredients. It's linzen (lentils) and soup. He went to the Lidl and bought the naan there. One weird thing was that it was shaped like a bike saddle or a dinosaur skull. But it didn't taste less because of it. All by all, we had a delicious meal. After that he made us a very delicious borrelplankje with crackers, tapenade, old cheese-pesto dip, oven baked chips, pepper pringles and sweet pepper dip. Also, he bought a coffee maker only to make esma's (not to drink warm coffee), so he made us some delicious esma's. It was aa dream!! However, Floor didn't want any because otherwise she can't sleep. Read on quickly to find out what the committee thinks of Ferry's lentil soup!

What did the Hastueel committee think of the lentil soup?

- Isa: delicious and pureed. Pureed and delicious. Naan was nice and thick and went well with the soup. Thicker than the naan from the appie.
- Eva DJ: Tasty, an 8 out of 10. A bit of spice (which we love). Orange.
- Eva Stampie: Very tasty. I give it a 7.5 because personally... okay wait, I want to make it an 8 anyway. I thought it was on the small side, but Ferry made up for that with a nice borrelplankje.
- Ferry: As expected. I give it an 8 myself. Nice and wintery and it still held room for the borrelblankje. Healthy but classy.
- Juliët: Yes, delicious.
- Floor: it was a bit spicy, but the soup was very tasty nonetheless. It was well-filled and tasted healthy. The naan was good and nicely spiced.

## BABY NAME??

One of the amazing things that can happen in life is when two people decide to make more life. While the rest of Ha-Stu is doing that by drinking so much that they see double, daddy Hendrik decides to do it in a more mature way.

I do not have to explain to you how this can happen (if I do please reach out to me in real life). And that is also not the focus of the article. The focus of the article was to help Hendrik and Klara, find the perfect name for the baby. And we decided that the people from Ha-Stu would be perfectly fit to send in some suggestions. So thank you so much for that.

Beside that, we also asked you to guess the gender of the baby. Apparently patriarchy isn't a thing at Ha-Stu because 79% of you thinks (and hopes) that the baby would be a girl. 21% percent of you thought that it would be a boy. We will find out at the birth!

## The gender of le baby

Then..... back to the namessss! Exactly 351.487 names have been sent in and reviewed by Klara and Hendrik, for the past weeks they have been struggling besides being a future mom and dad to be, to read the names, discuss it with each other and to make a decision. There we go... The winning baby names for the baby of Klara und Hendrik are : **Fritz und Lina!** Sadly both names were sent in by Stampie (Lina also by Els). But congrats Stampie you will receive a price from your eigen commissie!

Klara and Hendrik wrote the following review about it :

*"Both are really nice sounding names. Fritz is short for Friedrich, which was the name of my grandfather. And Lina because we couldn't name a girl Alina since we already have that name in our family 😊"*

Thankyou Ha-Stu for sending in the names and thank you Klara und Hendrik für choosing the names. Some honourable mentions that unfortunately not make the endlist are:
